OPEN ACCESS NETWORK

DRIVING SAVINGS FOR MEC PLANS

MINIMUM ESSENTIAL COVERAGE SOLUTION

Open Access Network improving access & savings

Our Minimum Essential Coverage (MEC) solution is designed to combine with your health benefits plan to extend favorable reimbursement for MEC plans. Unlike traditional MEC plans, our MEC Solution enables members to choose high-quality medical providers and facilities to meet their precise health needs while balancing the financial cost for the member, the plan and the provider.

It's a win-win: members gain open choice to select higher-quality care for fair and reasonable costs, along with lower out-of-pocket costs; providers receive reimbursement based on fair, acceptable market recognized pricing and geography.

It improves member access to quality care, achieves 50-75% cost savings improvement, provides front-end proactive telephonic/email support for member care questions, and works collaboratively with providers delivering care.

Unlike health plans that offer a specific defined network (e.g., a PPO), our MEC Solution allows members to seek care and treatment for covered services under the plan from any provider. While providers and facilities are not considered "in-network" or "out-of-network," they are granted fair and equitable reimbursements based on the market-sensitive pricing approach.

OUR ADVANTAGES

- Deep cost improvement for each MEC Plan and their members
- No defined network of providers; the open-access model allows members to seek care from any provider
- Proactive, front-end support to guide members to the best providers and high-quality care decisions. Member support can be obtained on-demand via phone or email

You will be responsible for this balance bill amount, which may be considerable. You will also be responsible for charges for services, supplies, and procedures limited or excluded under the Plan, as well as any applicable deductibles, coinsurance, and/or co-payment amounts.
